ABOARD THE T.E.V PRINCESS
PATRICIA(AT DOCK IN ALASKA)-
Veteran Port Credit funster

urgent message June 29 to

kid is planning to return to
good ol' PC for a one week
holiday...July 17".

years ago of Pig Films Inc.,
is currently en route to
Vancouver from Alaska as
part of his summer employ-
ment,and will soon be
winging his way eastward to
the old haunts of PCSS,T.O,

Next Issue: TED SLEIGHS
FRONT

The news came as a complete
surprise to me,having just
returned from a short holiday
at our cottage near Perth
(see complete story below).
Although Teddy will make the
Taylors' modest bungalow home
base during his stay,emergen-
cy quarters are being prepared
immediately at my residence.

All parties involved do
regret one thing though: the
irreversible absense of one
Doug Mojo Pelton,one of the
Pig/Port Credit clique's main
pillars. Ted's expected "Hiya
Douggie!" will be channeled
to Pelton through this column

Election Special SILLIES TOPPLED

MISSISSAUGA(SOB)-Don Blenkarn,
Silly Party incumbent in the Miss-
issauga riding,went down defeated,
the victim of what seems to be a
Liberal mudslide in Ontario. The
new MP for the riding is 77 year
old soda jerk Abbott Costello,one
of the nation's leading Liberal's
and personal friend of Prime
Minister Trudeaut.

Monday's election saw an over-
all total of Liberals,426,Silly
Party,52.34,New Republican Party,
-64,Social Credits,1,and Michael
Houlton,2,407. The future of the
Silly and NRP party leaders,Robt.
Stunfield and Gary Lewis,seems in
doubt after this major defeat.
All parties involved(PUN)may take
solace,though,in the fact that a
new federal election has been
called for July 28.

ROSIE WRITES

AGUSTA(GA)-Noted and note-
worthy American writer R.
Blagburn has just been
named a successful appli-
cant for Pig's Silly
Course,as out-lined in
Mojo Pelton's pre-Camp K.
correspondence.

Ms.Blagburn,20,begins
her studies by mail this
month,with hopes of some
day earning Pig's coveted
Doctorate of Nonsense de-
gree. "It'll be tough,but
I'm sure I can do it" Rose
writes.

Meanwhile,her personal
tutor Dr.Christopher D.
Pelton,wishes her "all the
luck in the world". Dr.
Pelton,founder of the
Peltoniac Institute of
Mindbending,is currently
on assignment in Minden,
Ontario,attempting to
"silly up" a truck-load of
serious kiddies from
across Canada(DC5 PUN)

GARY'S X JOURNAL

The week after your
hasty departure up
north was spent busy
at house-painting.
Richard and I now
have more jobs than
we can ever hope to
complete by the end
of the summer,and so
we are no longer
accepting calls,but

will finish the jobs already
secured with a little help
from our friends.

Dominion Day was spent in
Toronto with Peter Chapman
who,I assure you,is letting
a bit of the old Petey silly
out through his pseudosmart
facade. (We attended a run
of "Last Tango In Paris": a
full review on Page 2 in ITS
THE ARTS!).Dr.Serious and I
combed the record and book
shops along the Mall (Music
World has a stack of Nash-
ville Teen LPs going for \$4)

July 5-13 was spent at
our cottage south of
Ottawa,where I learned
to waterski,visited old
friends,slept thru a re-
run of Burdon's In
Concert gig,and getting
a tan. A much-needed
rest prior to another 6
or 7 weeks of painting.

In my spare time,I'm
readying for England,
readying for Ted Sled,
playing KINKS records,
and supervising work on
The PIG Paper.

PYTHONMANIA HITS AMERICA!!

by A. Writer

IT was only a matter of time, I suppose. First it was Mary Pickford, then Amos'n Andy, and Jerry Lee Lewis, and if that wasn't enough, the Pat Paulsen Half A Comedy Hour, the Nat'l Lampoon Radio Hour, "The Nine Lives Of Fritz The Cat", and Zoot Money.

As if society hadn't wallowed in filth enough!

Then along came Britain's worst hunk of commie-rot since Brian Jones: a quintet of raw unspoken London twirps known as MONTY PYTHON'S FLYING CIRCUS. The Circus' disgusting TV show has infected Europe and Canada, and, thank God, our USofA has managed to keep our

hands clean of the whole mess Until now.

Who is to blame for this new punch in Uncle Sam's gut? DEAN MARTIN, that's who! His summer television series, "Comedy World", has been airing a weekly study of American and British comics, one of which was Python. Well, it seems the hippie-types fell for MPFC so much that NBC has scheduled the Flying Circus for bi-weekly runs this up-coming TV season.

No sooner had My Mother The Car been smeared from the small screen than along comes a new batch of pooh.

THE MERSEY CONNECTION

SPECIAL TO THE STY
by GARY CREIGHTON.

MR.SAUGA(RPM)-As if the receipt of three Gerry & Pacemakers LPs in one day wasn't enough for this avid record collector,a recent trip into T.O. resulted in one of the third floor's gearest finds in months: "THE DAVE CLARK FIVE AT THE SCENE" Album,featuring "TRY TOO HARD"! How's THAT for a 6000 series spectacular,huh? The cover's a gas (you gotta see it to believe it,man. It's one of those covers...like,how do you describe in words covers like "At The Scene" and "Preser. Act II"? I ask you!) Remember the time we went into the Big Smoke in February and I was searching for the SCENE LP? Well,guess why we couldn't find it? Coz the giveaway (the black dot...remember looking thru the X-Shoppe window that night?) was curled down onto the BACK cover making it impossible to detect from its position in the file. But cruisin thru the albums one by one,it had no furthur

chance of evading me,and now I may be 99% poorer,but musically my wealth has quadrupled with this latest Liverpop Luvly. It must be the first LP you see & here when you get back to my place!

The same night in the city,I found for \$1.89 in Sherman's (the IMPORTant store),TWO copys of "Animal Tracks",and they should be there when we hit T.O in the fall. So put aside two clams,huh?

"One of the advantages of self-employment ie: Painting is the chance to meet valuable people". These words from noted Port Credit painter John Garfie Creiyon. "The house I just finished last week was owned by an English couple just over from the land of Python. Day-time chats with the Mrs. led thru the Goons to Python to the Beatles to old music: Do you know this middle-aged couple is so well read in Mersey memorabilia that they asked me one night: "Aye,we had a pile of old records we didn't bring over with us from Sheffield". "Oh yeah?" "Old British records" "OH YEAH?!" "Like,the Beatles" "pant pant" "Herman's Hermits" "PANT PANT" "Dave Clark" "WOW!" "Would you like some of 'em.luv" "WOULD I?!" "We're goin back in October and could bring ya back some". "Would you? Oh,THANKS!!!"

So,there you have it. I can hardly wait to see what the future holds for us Mersey-nuts

GARY'S * JOURNAL

Currently enjoying a few days holiday before continuing painting,my days have been spent fascinated by the Nixon

Singer At Ont. Camp

OX BARRELS(BSF)-Former singing star Eric Burdon has enrolled in the August term at nearby Kamp KannedHeat,it was disclosed by the kamp's newsletter today.

Burdon,former singer with the Animals pop group,registered under the first name of Samie

comedy hour,taking massive bike rides,listening to July's fine crop of Mersey LPs,and all-roun goofin off. I visit Maxted's about once a week,marvelling at his huge new tape deck(not half as good as mine for \$600). Last night,I participated in the clique's latest fad: Track. At 11 every night,noted PCSS alumni meet at the school's track and run. I ran eight laps (two miles)none-stop. But I ended up where I'd started. Humph. Oh well,the sooner you get back, the sooner I can find better things to do with my spare time

and is said to be enjoying himself amidst the spleandor of Canada's untamed north lands.

Registering along with Burdon was a girl named Sandoz and the two share a lucious cabinette on the kamp's spacious grounds. He and employee Mojo Pelton get on quite well
